NOTE: The NOAA Weather Radio stations listed below provide continuous weather broadcasts. The reception range is typically 20 to 40 nautical miles from the antenna site, but can be as much as 100 nautical miles for stations at high elevations.

Brunswick, GA WWH-29 162.425 MHz  
Jekyll, GA WWH-28 162.425 MHz

NOTE B  
Mariners are cautioned that intermittent open water spot disposal operations may be conducted in the area south of St. Simons Light. Dumping only takes place in depths greater than 50 feet.

PLANE COORDINATE GRID  
Based on NAD 1983  
Georgia State Grid, east zone, is indicated by dashed ticks at 10,000 foot intervals.

CAUTION  
Improved channels shown by broken lines are subject to shoaling, particularly at the edges.

CAUTION  
Temporary changes or defects in aids to navigation are not indicated on this chart. See Local Notices to Mariners.

CAUTION  
SUBMARINE PIPELINES AND CABLES  
Charted submarine pipelines and submarine cables and submarine pipelines and cable areas are shown as follows:

Pipeline Area  
Cable Area

Additional uncharted submarine pipelines and submarine cables may exist within the area of this chart. Not all submarine pipelines and submarine cables are required to be buried, and those that were originally buried may have become exposed. Mariners should use extreme caution when operating vessels in depths of water comparable to their draft in areas where pipelines and cables may exist, and when anchoring, dragging, or trawling. Covered wells may be marked by lighted or unlighted buoys.

NOTE: The NOAA Weather Radio stations listed below provide continuous weather broadcasts. The reception range is typically 20 to 40 nautical miles from the antenna site, but can be as much as 100 nautical miles for stations at high elevations.

WARNING  
The prudent mariner will not rely solely on any single aid to navigation, particularly on floating aids. See U.S. Coast Guard Light List and U.S. Coast Pilot for details.

AIDS TO NAVIGATION  
Consult U.S. Coast Guard Light List for supplemental information concerning aids to navigation.

SUPPLEMENTAL INFORMATION  
Consult U.S. Coast Pilot 4 for important supplemental information.

AUTHORITIES

HORIZONTAL DATUM  
The horizontal reference datum of this chart is North American Datum of 1983 (NAD 83), which for charting purposes is considered equivalent to the World Geodetic System 1984 (WGS 84). Geographic positions referred to the North American Datum of 1983 must be corrected an amount of 0.8137' northward and 0.632' eastward to agree with this chart.

CAUTION  
This chart has been corrected from the Notice to Mariners (NB) published weekly by the National Oceanic and Atmospheric Administration and the Local Notices to Mariners (LNM) issued periodically by each U.S. Coast Guard District to the dates shown in the lower left hand corner. Chart updates corrected from Notices to Mariners published after the dates shown in the lower left hand corner are available at nauticalcharts.noaa.gov.

NOTE X  
Within the 12-nautical mile Territorial Sea, established by Presidential Proclamation, some Federal laws apply. The Three Nautical Mile Line, previously identified as the outer limit of the territorial sea, is retained as it continues to depict the jurisdictional limit of the other laws. The 3-nautical mile Natural Resource Boundary of the Gulf coast of Florida, Texas, and Puerto Rico, and the Three Nautical Mile Line elsewhere remain in most cases the inner limit of Federal fisheries jurisdiction and the outer limit of the jurisdiction of the states. The 24-nautical mile Contiguous Zone and the 200-nautical mile Exclusive Economic Zone were established by Presidential Proclamation. Unless fixed by treaty or the U.S. Supreme Court, these maritime limits are subject to change.

This chart was distributed as a PDF (Portable Document Format). Printed PDFs may alter the chart scale, color, or legibility that may impact suitability for navigation. Printed charts provided by NOAA certified Print on Demand (POD) providers fulfill a vessel's requirement to carry a navigational chart published by the National Oceanic and Atmospheric Administration in accordance with federal regulations, including but not limited to 33 C.F.R. 164.33(a), 33 C.F.R. 164.72(b), and 46 C.F.R. 28.225(a). POD charts meet stringent print standards and can be recognized by an official certification of authenticity printed on the chart. A list of POD providers can be found at: nauticalcharts.noaa.gov/od
