INTRACASTLE WATERWAY
The Intracastle Waterway between the east and west ends of the island is shown on this chart. Use Chart No. 11518 for the Intracastle Waterway from Charleston, S.C. to Beaufort, S.C. at 12 feet. The operating depths are published periodically in the U.S. Coast Guard Local Notice to Mariners.

NOTE X
When the 10-nautical mile Temporary Sea, previously proclaimed under Executive Order 11811, is terminated, it is recommended that the jurisdiction of Florida, Texas, and Puerto Rico, and the Three National Mile Line be observed until such time as the U.S. Coast Guard issues a new notice of the status. The 24 nautical mile Contiguous Zone and the 200 nautical mile Exclusive Economic Zone were established by Presidential Proclamation. Unless later by treaty or the U.S. Supreme Court, these maritime limits are subject to modification.

NOTE A
Navigation regulations are published in Chapter 2 of the U.S. Coast Guard Light List. The regulations are published in the U.S. Coast Guard Light List for the U.S. Coast Guard District of Miami, FL, or the Office of the District Engineer, Corps of Engineers in Charleston, S.C. Refer to current regulation sector numbers.

NOTE B
The NOAA Weather Radio broadcasts are published in the U.S. Coast Guard Light List. The NOAA Weather Radio stations listed receive periodic continuous weather broadcasts. The reception range is typically 20 to 40 nautical miles from the antenna site, but can be as much as 100 nautical miles for stations at high elevations.

NOTE C
Improved channels shown by broken lines are subject to shoaling, particularly at the edges.

NOTE D
Temporary changes in depths in aids to navigation are not indicated on this chart. See Local Notice to Mariners.

NOTE E
Supplemental information. Consult U.S. Coast Pilot 4 for important supplemental information.

NOTE F
Abbreviations. For complete list of Symbols and Abbreviations, see Chart No. 1.

NOTE G
Heights in feet above Mean High Water.

NOTE H
Authorities. Hydrography and topography by the National Oceanic and Atmospheric Administration, U.S. Coast and Geodetic Survey, and U.S. Coast Guard.
