THE NATION'S CHARTMAKER SINCE 1807

UNITED STATES – EAST COAST

MARYLAND – VIRGINIA

CHESAPEAKE BAY

TANGIER SOUND - NORTHERN PART

Mercator Projection
Scale 1:40,000 at Lat. 38°05'

North American Datum of 1983
(World Geodetic System of 1984)

SOUNDINGS IN FEET
AT MEAN LOWER LOW WATER

SCALE 1:40,000
Nautical Miles
Yards

Additional information can be obtained at nauticalcharts.noaa.gov.

HORIZONTAL DATUM
The horizontal reference datum of this chart is North American Datum of 1983 (NAD 83), which for charting purposes is considered equivalent to the World Geodetic System 1984 (WGS 84). Geographic positions referred to the North American Datum of 1927 must be corrected an average of 0.444" northward and 1.232" eastward to agree with this chart.

CAUTION
FISH TRAP AREAS AND STRUCTURES
Mariners are warned that numerous uncharted duck blinds and fishing structures, some submerged, may exist in the fish trap areas. Such structures are not charted unless known to be permanent. Regulations to assure clear passage to and through dredged and natural channels, and to established landings, are prescribed by the Corps of Engineers in the Code of Federal Regulations. Definite limits of fish trap areas have been established in some areas, and those limits are shown thus. Where definite limits have not been prescribed, the location of fishing structures is restricted only by the regulations.

WICOMICO RIVER
The controlling depth was 13 feet for a width of 150 feet to light 23, thence 12 feet for a middle width of 75 feet to Salisbury.
Doc 2013

OYSTER AQUACULTURE
Oyster bod aquaculture leases may exist within the limits of this chart. Mariners are cautioned that numerous markers may exist and watermen may be active in the area. Caution should be exercised when navigating in or near these areas, not to anchor or ground, in order to avoid damage to the beds. Depths may be shallower than the soundings shown. For more information, contact the local department of natural resources.

CAUTION
Mariners are warned to stay clear of the protective riprap surrounding navigational light structures shown thus:

CAUTION
Mariners are warned to stay clear of the privately maintained daybeacons.

OLD HOUSE COVE
Channel was reported dredged to 6 feet 1979.

FLATCAP BASIN
Channel is marked by privately maintained daybeacons.

DANGER ZONE
334.190 (see note A)

DANGER ZONE
334.200 (see note A)

PROHIBITED AREA
334.190 (see note A)

BOMBING AREA 334.200 (see note A)
