

CAPE BLANCO TO CAPE FLATTERY

Scale 1:735,500 at Lat. 46°00' North American Datum of 1983 (World Geodetic System 1984) SOUNDINGS IN FATHOMS AT MEAN LOWER LOW WATER

ABBREVIATIONS table listing symbols for various navigational aids and features such as buoys, lights, and structures.

HEIGHTS in feet above Mean High Water. AUTHORITY: Hydrography and topography by the National Ocean Service, Coast Survey, with additional data from the Corps of Engineers, Geological Survey, U.S. Coast Guard, National Geospatial Intelligence Agency, and Canadian authorities.

NOTE L: Scientific equipment tests on the seafloor in this area. Mariners should use caution. CAUTION: Temporary changes or defects in aids to navigation are not indicated on this chart.

NOTE A: Navigational regulations are published in Chapter 2, U.S. Coast Pilot. Additional regulations for the Coast and Geodetic Survey are published in the U.S. Coast Pilot. Regulations for the U.S. Coast Guard are published in the U.S. Coast Pilot. Regulations for the U.S. Coast Guard are published in the U.S. Coast Pilot.

MAGNETIC VARIATION: Magnetic variation curves are for 2006 derived from the 2006 World Magnetic Model and accompanying annual change. If annual change is in same direction as variation it is additive and the variation is increasing. If annual change is in opposite direction to variation it is subtractive and the variation is decreasing.
