BookletChartTM

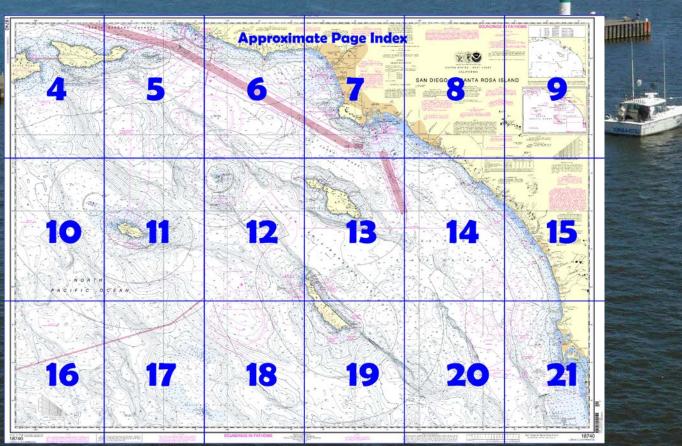

A reduced-scale NOAA nautical chart for small boaters When possible, use the full-size NOAA chart for navigation.

- Complete, reduced-scale nautical chart
- Print at home for free
- Convenient size
- Up-to-date with Notices to Mariners
- Compiled by NOAA's Office of Coast Survey, the nation's chartmaker

Published by the National Oceanic and Atmospheric Administration National Ocean Service Office of Coast Survey

What are Nautical Charts?

Nautical charts are a fundamental tool of marine navigation. They show water depths, obstructions, buoys, other aids to navigation, and much more. The information is shown in a way that promotes safe and efficient navigation. Chart carriage is mandatory on the commercial ships that carry America's commerce. They are also used on every Navy and Coast Guard ship, fishing and passenger vessels, and are widely carried by recreational boaters.

What is a BookletChart[™]?

This BookletChart is made to help recreational boaters locate themselves on the water. It has been reduced in scale for convenience, but otherwise contains all the information of the full-scale nautical chart. The bar scales have also been reduced, and are accurate when used to measure distances in this BookletChart. See the Note at the bottom of page 5 for the reduction in scale applied to this chart.

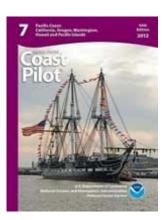

Whenever possible, use the official, full scale NOAA nautical chart for navigation. Nautical chart sales agents are listed on the Internet at http://www.NauticalCharts.NOAA.gov.

This BookletChart does NOT fulfill chart carriage requirements for regulated commercial vessels under Titles 33 and 44 of the Code of Federal Regulations.

Notice to Mariners Correction Status

This BookletChart has been updated for chart corrections published in the U.S. Coast Guard Local Notice to Mariners, the National Geospatial Intelligence Agency Weekly Notice to Mariners, and, where applicable, the Canadian Coast Guard Notice to Mariners. Additional chart corrections have been made by NOAA in advance of their publication in a Notice to Mariners. The last Notices to Mariners applied to this chart are listed in the Note at the bottom of page 7. Coast Pilot excerpts are not being corrected.

For latest Coast Pilot excerpt visit the Office of Coast Survey website at http://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=187 http://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=187 http://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=187 http://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=187 http://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=187 http://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=187 http://www.nauticalcharts.noaa.gov/nsd/searchbychart.php?chart=187 <a href="http://www.nauticalcharts.noaa.gov/nsd/searchbycharts.noaa

(Selected Excerpts from Coast Pilot)
Los Coronados (Coronado Islands) are four bare, rocky islands, extending 4.5 miles in a NW direction, 7 miles offshore in Mexican waters, and 15 miles S of Point Loma. These islands are prominent in clear weather, and the passage E of them is commonly used by vessels. Depths in the vicinity of the islands are irregular, and in thick weather or at night caution must be observed when near them.

Oceanside Harbor, at the N end of the city, 1.2 miles NW of the pleasure pier,

is a small-craft harbor administered by the City of Oceanside,

Department of Harbor and Beaches. The harbor, which can accommodate about 950 small craft, shares a common entrance with Del Mar Boat Basin (Camp Pendleton Marine Corps Base) to the N. Harbor regulations.—The harbor is under the control of the City of Oceanside, Department of Harbor and Beaches. The harbor headquarters building is on the E side of the harbor opposite the entrance. About 50 berths for transient craft are available at the harbor headquarters. All moorage must be arranged with the harbor office in the headquarters building. Prepaid reservations are accepted for 24 guest slips, with the remainder available on a first come, first served basis. The Oceanside Harbor Police operates from the headquarters building. The police boats are equipped with rescue and fire fighting equipment. The police boats monitor VHF-FM channel 16, 24 hours a

A military exercise area extends about 3 miles seaward from about 2 miles NW of the boat basin northwestward to San Clemente. Mariners are advised to consult Eleventh Coast Guard District Local Notice to Mariners for scheduled exercise dates and times.

day, and work on channel 12.

A **restricted** area is within the military exercise area and centered about 4.5 miles NW of Del Mar Boat Basin entrance. (See **334.905**, chapter 2, for limits and regulations.)

Caution.—The city of Los Angeles advises that under certain tidal conditions, underwater installations between King Harbor and Marina del Rey, seaward to 9 fathom depths, present possible hazards to surface navigation.

Sport fishing barges usually anchor 1 or 2 miles offshore during the summer; caution is advised to avoid them.

Dana Point Harbor is a small-craft harbor in the lee of Dana Point. The harbor is entered from the E between two breakwaters each marked by a light on the seaward end.

Caution.—Mariners should exercise caution when navigating over the sewer outfalls and submerged pipelines that extend seaward from El Segundo. Numerous uncharted buoys and other potential hazards to navigation exist within this area.

The entrance to **Santa Monica Bay** is between two lights at the ends of the breakwaters at the S end of the harbor. A sound signal is at the light on the E side of the entrance. A lighted bell buoy is 230 yards SSW of the S end of the W breakwater. The channel is marked by private buoys, with lights at the entrances to Basins 1 and 2.

Hermosa Beach and Manhattan Beach are between Redondo Beach and El Segundo. The pier at Hermosa Beach is about 1.3 miles N of Redondo Beach and extends about 275 yards from shore; a private sound signal is at the outer end. The Manhattan Beach pier, 2.5 miles N of Redondo Beach, extends almost 175 yards from shore.

A **restricted area** extends about 7 miles offshore at El Segundo. (See **162.195**, chapter 2, for limits and regulations.)

Marina del Rey.—A restricted area governing navigation inside the detached breakwater has been established. (See **162.200**, chapter 2, for limits and regulations.)

Traffic separation lanes have been established in the entrance channel to Marina del Rey. These lanes are marked by State Waterway Regulatory Buoys with the words "No Sail." All vessels under power, or power and sail, shall keep these buoys to their port when entering or departing the harbor. The center lane between the buoys is used by vessels solely under sail, both entering or departing the harbor.

Lateral System As Seen Entering From Seaward

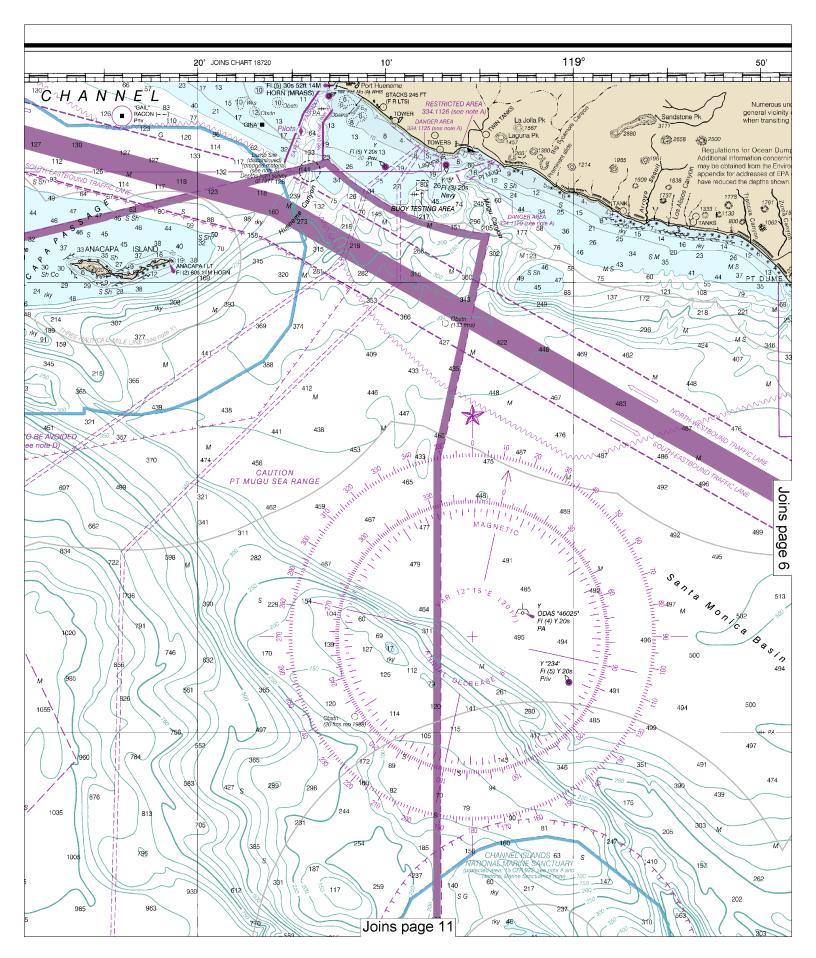

on navigable waters except Western Rivers

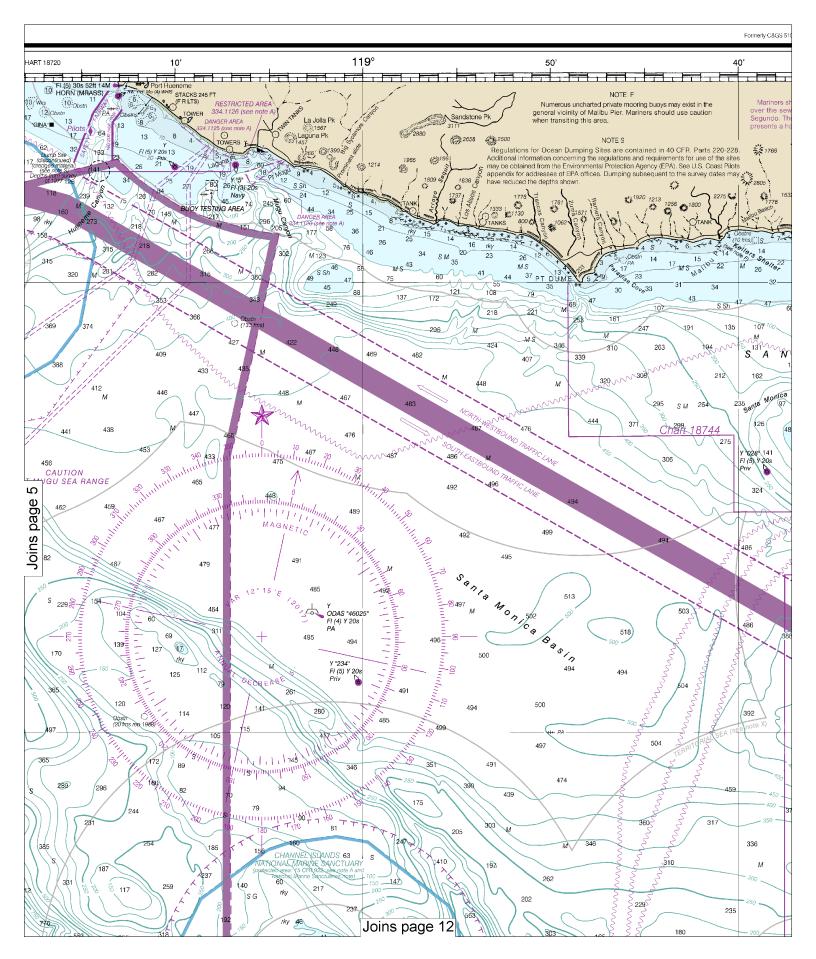

For more information on aids to navigation, including those on Western Rivers, please consult the latest USCG Light List for your area. These volumes are available online at http://www.navcen.uscg.gov

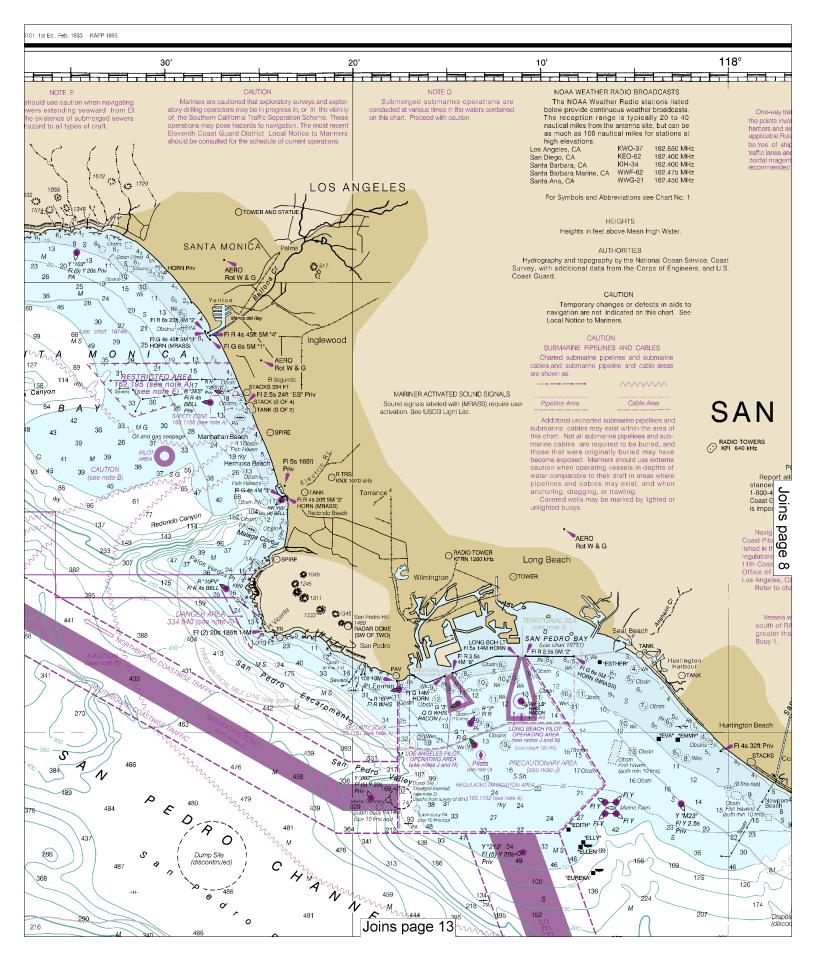

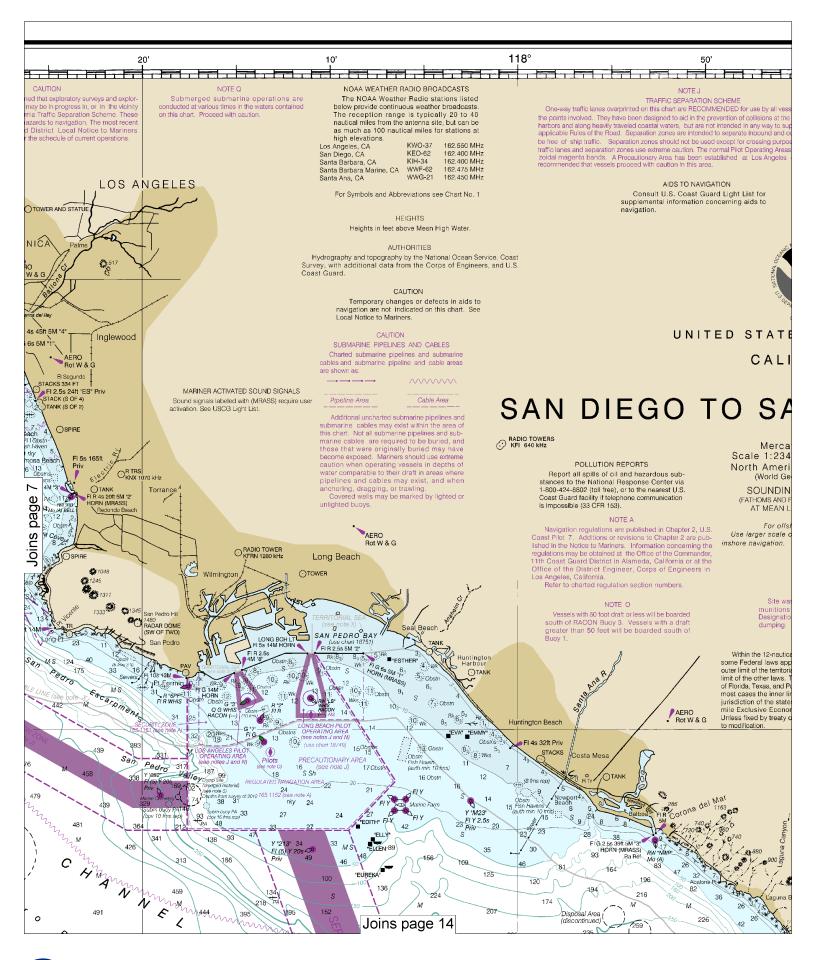

This BookletChart was reduced to 75% of the original chart scale. The new scale is 1:312360. Barscales have also been reduced and are accurate when used to measure distances in this BookletChart.

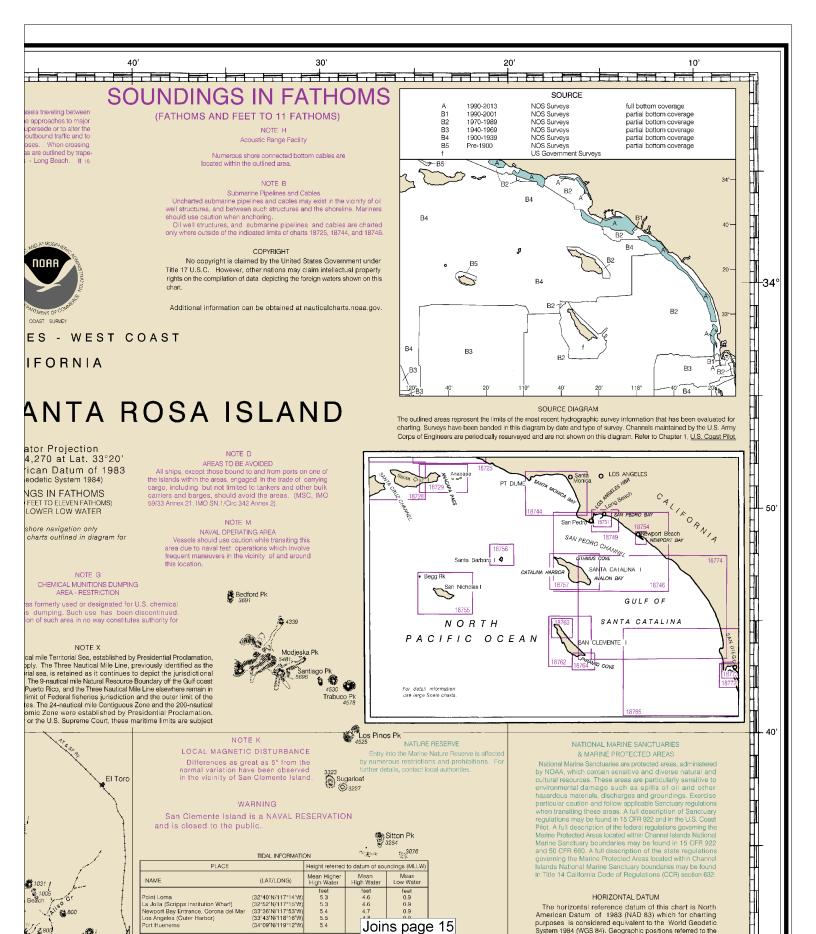

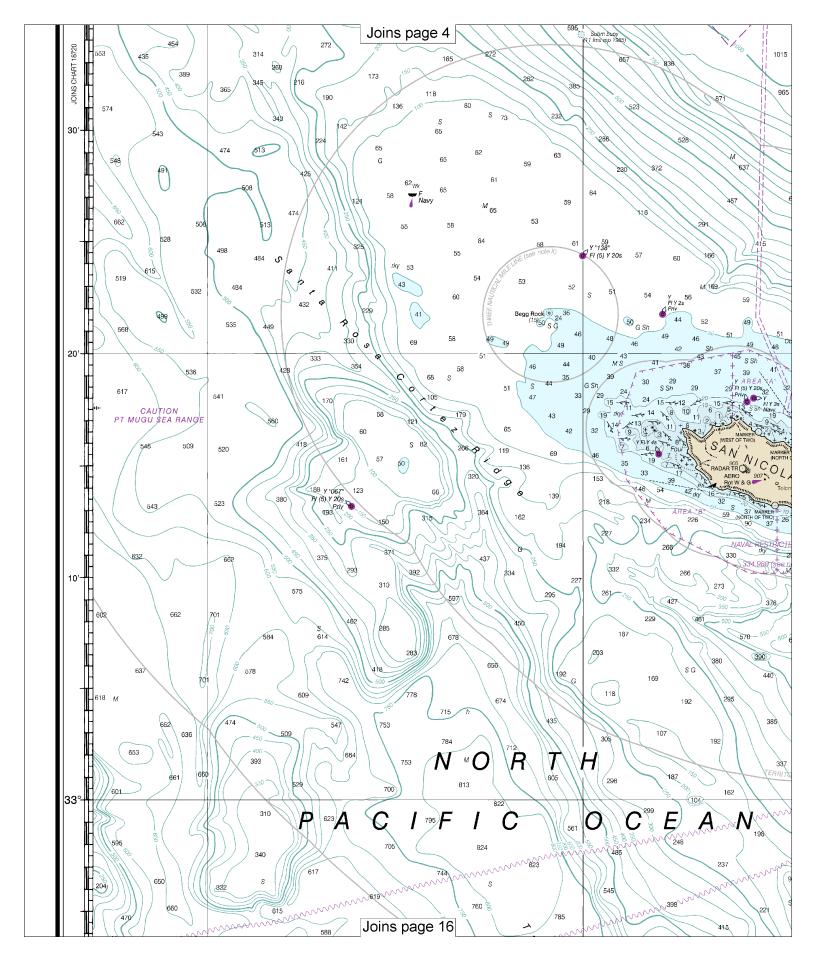

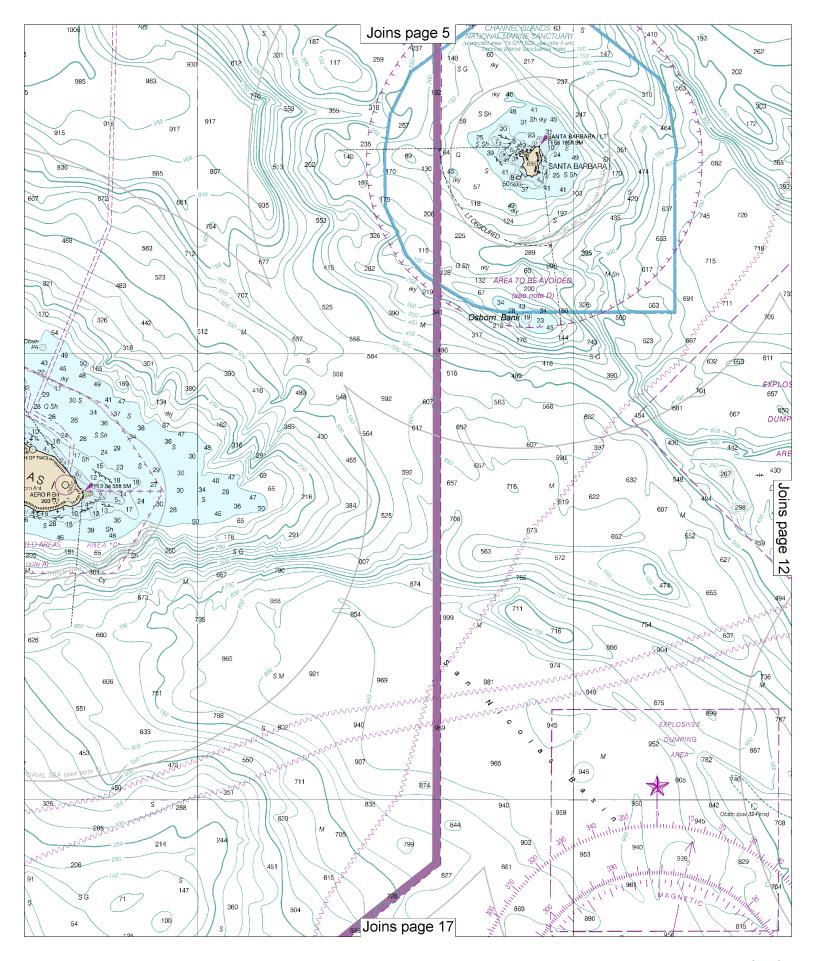

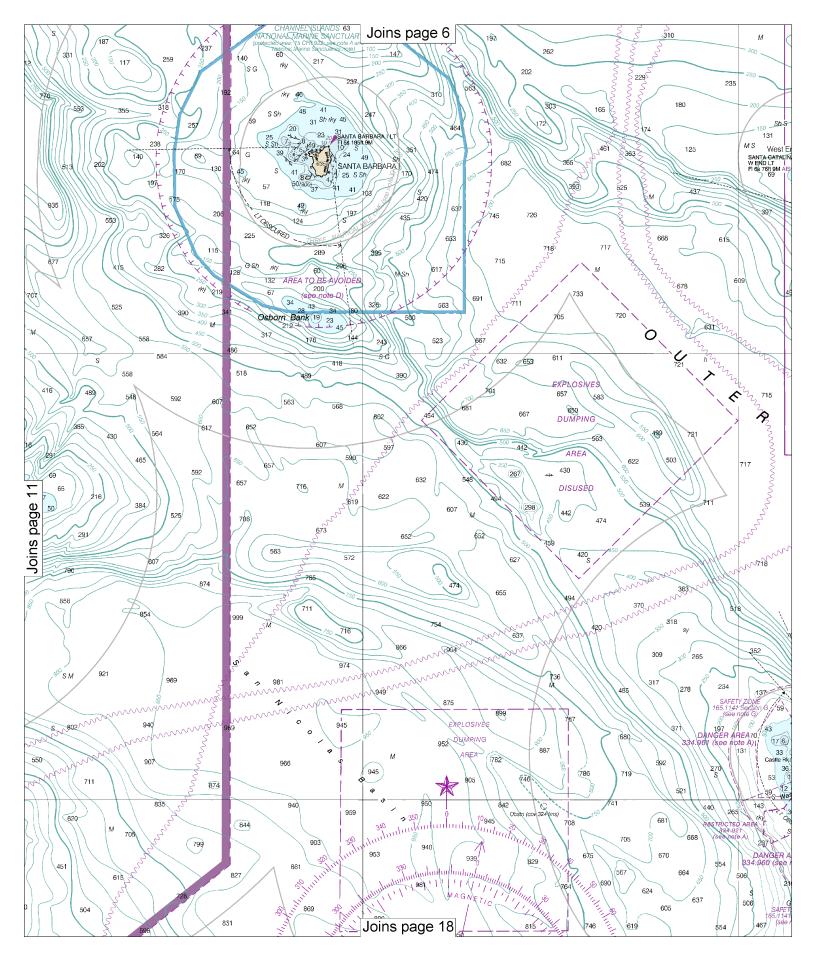

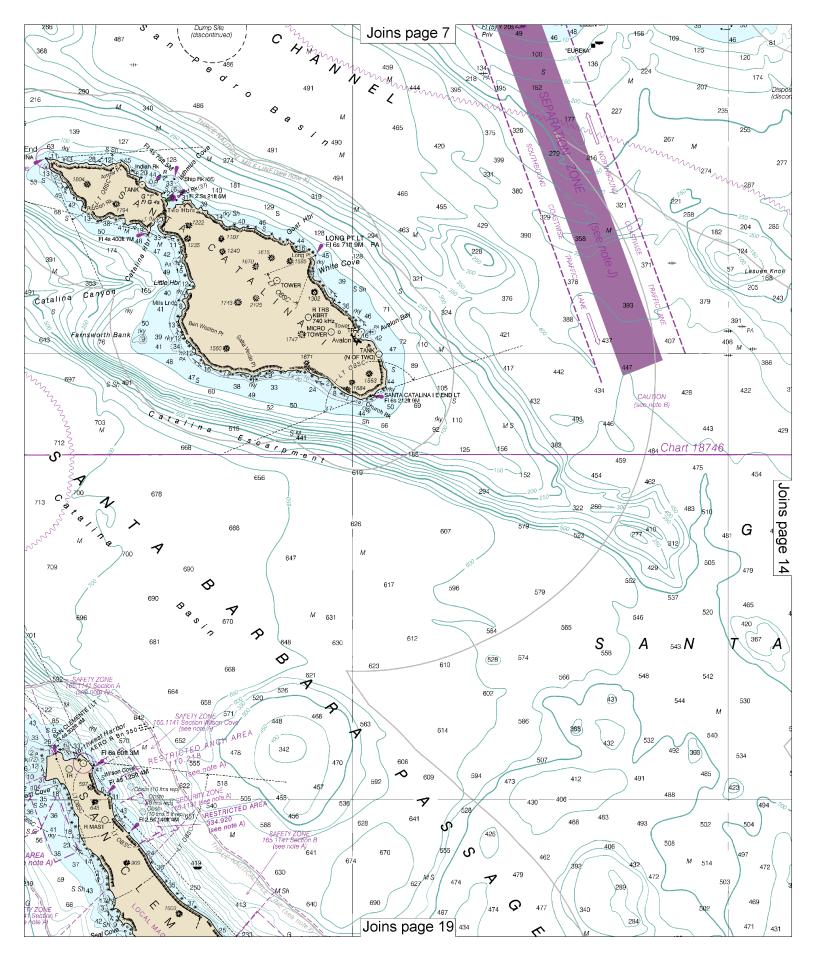

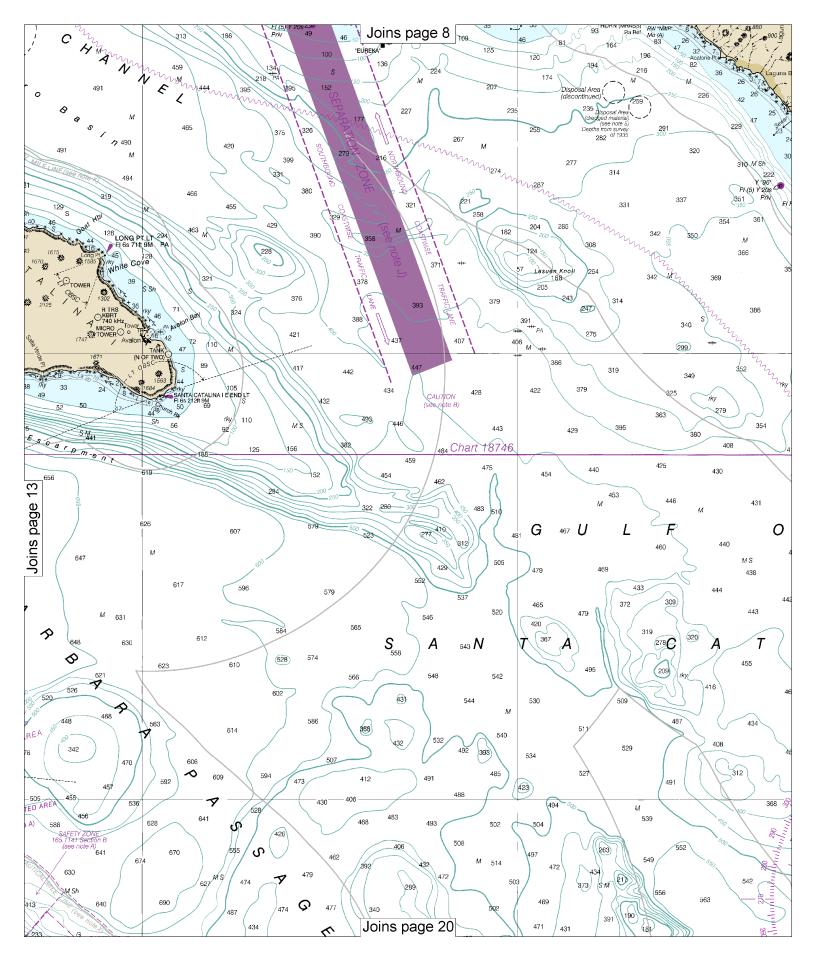

System 1984 (WGS 84). Geographic positions referred to the

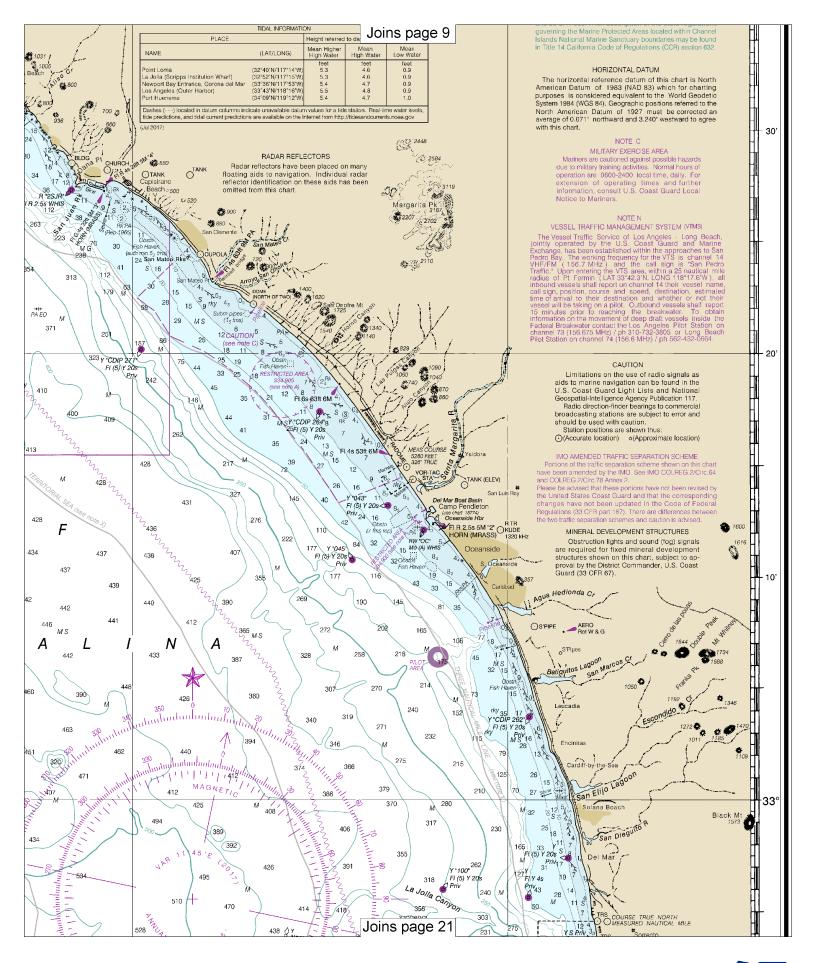

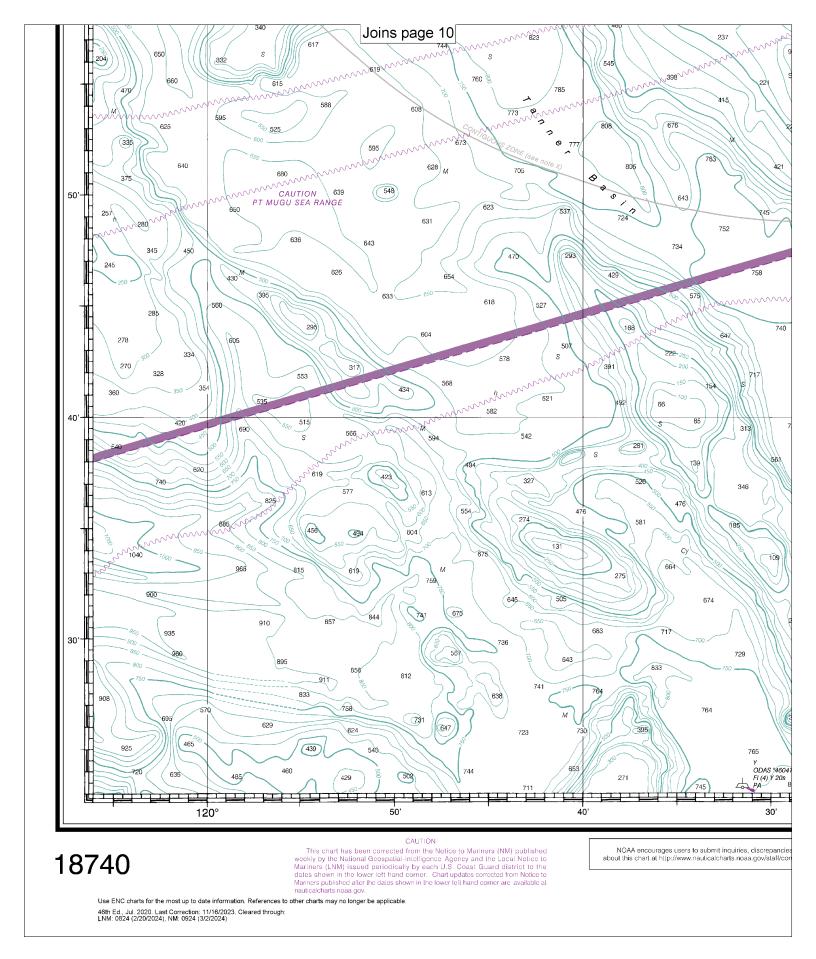

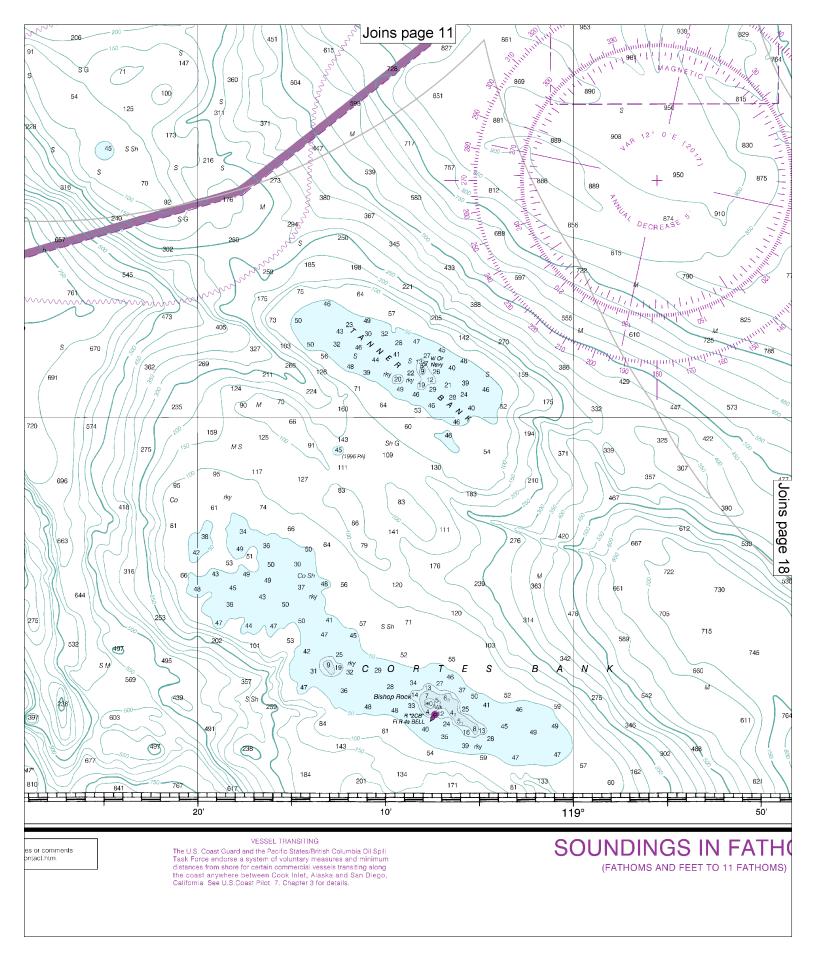

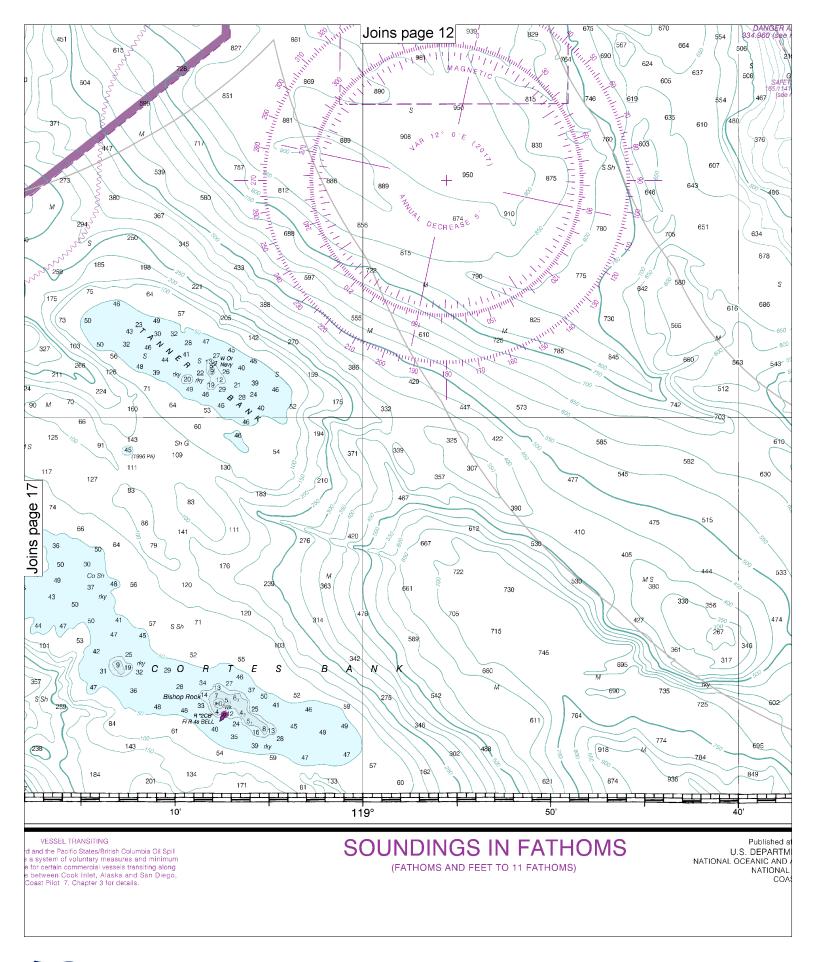

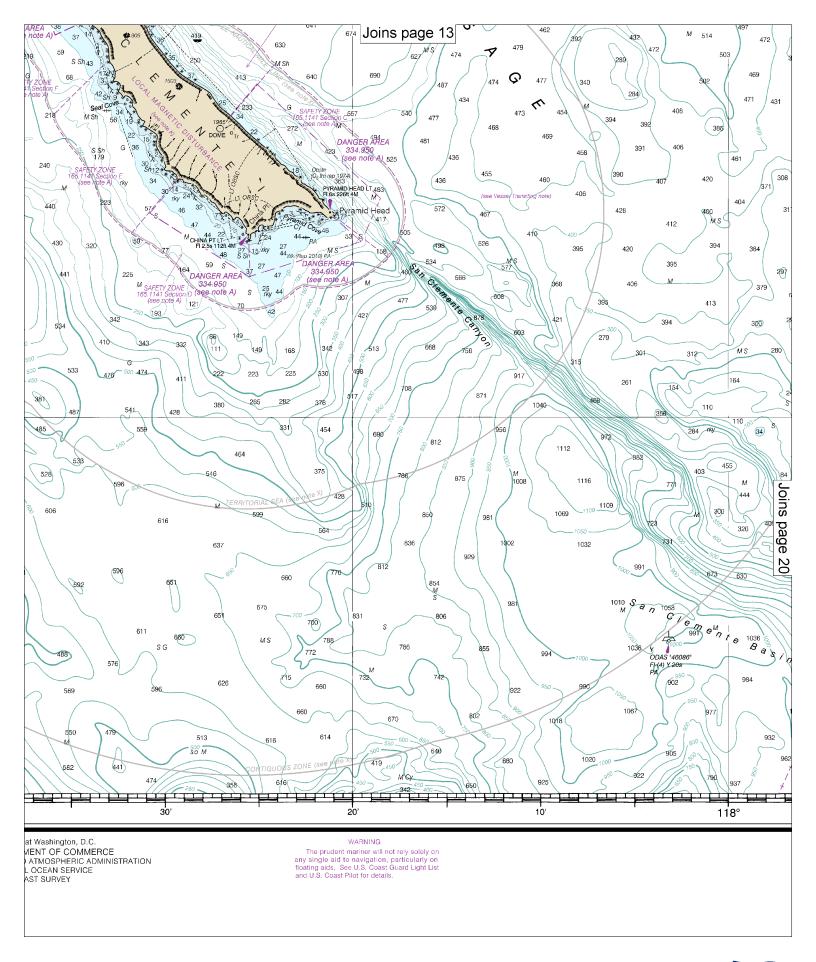

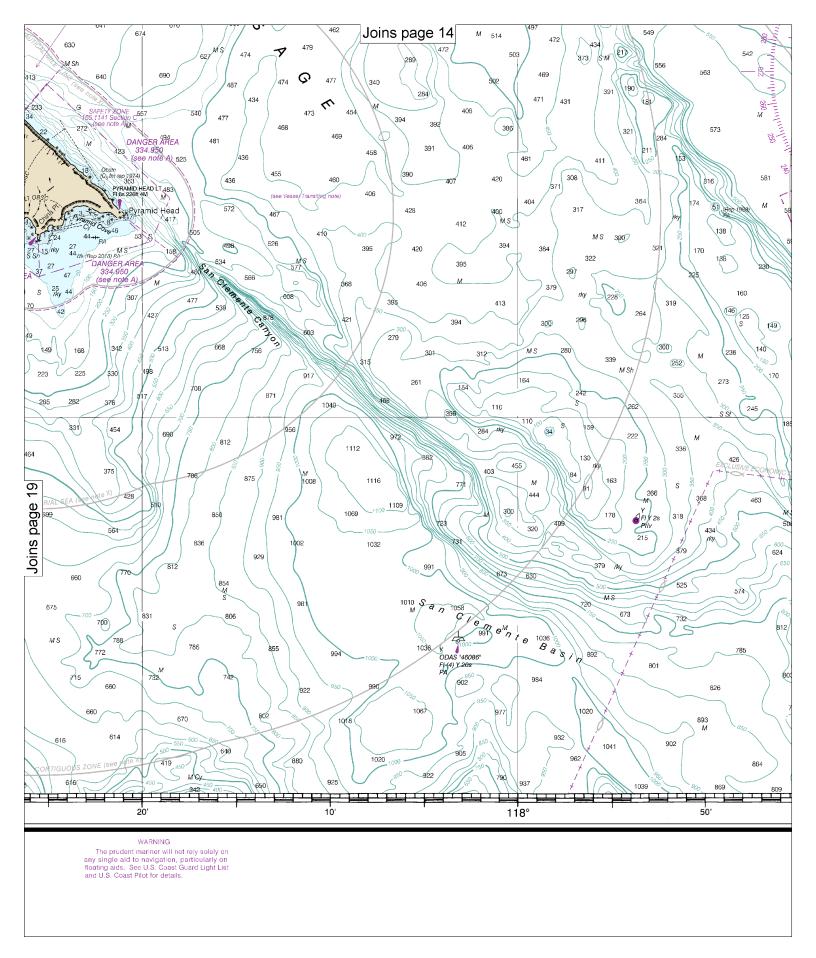

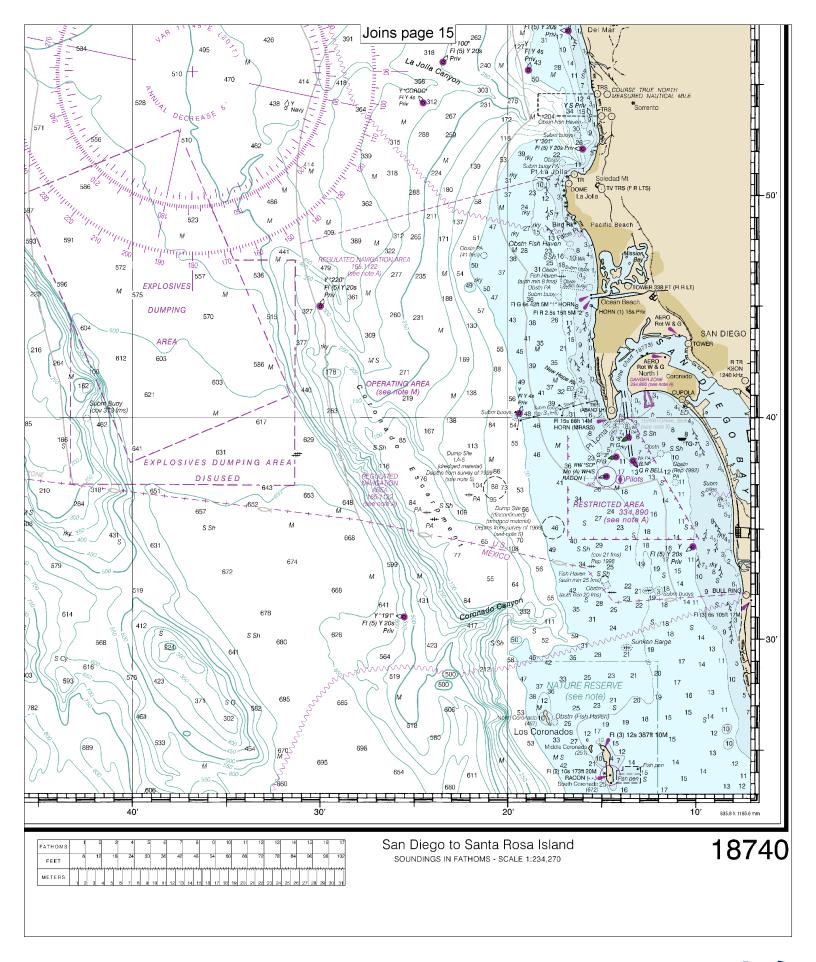

VHF Marine Radio channels for use on the waterways:

Channel 6 – Inter-ship safety communications.

Channel 9 – Communications between boats and ship-to-coast.

Channel 13 – Navigation purposes at bridges, locks, and harbors.

Channel 16 – Emergency, distress and safety calls to Coast Guard and others, and to initiate calls to other

vessels. Contact the other vessel, agree to another channel, and then switch.

Channel 22A – Calls between the Coast Guard and the public. Severe weather warnings, hazards to navigation and safety warnings are broadcast here. Channels 68, 69, 71, 72 and 78A – Recreational boat channels.

Getting and Giving Help — Signal other boaters using visual distress signals (flares, orange flag, lights, arm signals); whistles; horns; and on your VHF radio. You are required by law to help boaters in trouble. Respond to distress signals, but do not endanger yourself.

Distress Call Procedures

- Make sure radio is on.
- Select Channel 16.
- Press/Hold the transmit button.
- Clearly say: "MAYDAY, MAYDAY, MAYDAY."
- Also give: Vessel Name and/or Description; Position and/or Location; Nature of

Emergency; Number of People on Board.

- · Release transmit button.
- Wait for 10 seconds If no response Repeat MAYDAY call.

HAVE ALL PERSONS PUT ON LIFE JACKETS!

NOAA Weather Radio All Hazards (NWR) is a nationwide network of radio stations broadcasting continuous weather information directly from the nearest National Weather Service office. NWR broadcasts official Weather Service warnings, watches, forecasts and other hazard information 24 hours a day, 7 days a week.
